SUMMARY

We have examined Schedules A and B which summarize reported financial results and cash position of the contract awarded by the State of Montana, Department of Labor and Industry, Governor's Employment and Training Council to the Butte-Silver Bow Anti-Poverty Council, Butte, Montana, under U.S. Department of Labor Grant No. 30-9-210-48. The Prime Sponsor Contract, Number 9135, was funded from CETA Title IV for the period 11/1/78 - 6/30/79.

The audit disclosed:

- Travel expense reimbursements had not been recorded.

Exhibit I lists \$282 of questionable expenditures disclosed by the audit. The determination as to whether the costs will be allowable or unallowable under the contract will be made by the State of Montana, Department of Labor and Industry, Governor's Employment and Training Council. Exhibit I was not prepared for purposes of statistical projection.

SCOPE OF AUDIT

This report covers our examination of the financial results of program operations of the Contractor for the contract and the period referred to in the preceding Summary.

Our examination was made in accordance with instructions contained in the CETA Financial and Compliance Audit Guide and provisions of the "Standards for Audit of Governmental Organizations, Programs, Activities and Functions", promulgated by the Comptroller General, which pertain to financial and compliance audits.

Our examination included such tests of the accounting and program records and such other auditing procedures as we considered necessary in the circumstances.

The aforementioned Schedules are required to be prepared in accordance with the Standards for Grantee Financial Management Systems (Federal Management Circular 74-7, Attachment G) in conformity with the CETA Regulations; therefore, they are not intended to present either the financial results of operations or financial position in conformity with generally accepted accounting principles.

Statistical sampling is the preferred method of selecting a sample. Accordingly, in any area where the volume of transactions and record locations would permit, we have used statistical sampling for purposes of determining the audit sample size, selecting the sample items and evaluating the results for the periods examined. Our tests were designed on an attribute sampling basis, based on an expected rate of occurrence of 3% and a confidence level of 90%.

BACKGROUND

Our audit consisted of an examination of the financial and program records related to the CETA program operated by this Contractor.

The objectives of the audit were to determine whether the financial operations were properly conducted and documented, whether the Schedules were fairly presented and whether the Contractor complied with applicable laws and regulations. Our examination did not include a review of economy and efficiency or a review to determine whether desired results or benefits were achieved.

The audit was made by arrangement with the Prime Sponsor, State of Montana, Department of Labor and Industry, Governor's Employment and Training Council, to provide audits required by the United States Department of Labor and to provide the Prime Sponsor with information about the Contractor. The audit covered the period November 1, 1978 to June 30, 1979.

The Contractor examined in this audit was the Butte-Silver Bow Anti-Poverty Council. This was the first contract between the Prime Sponsor and the Contractor. Consequently, there was no prior year audit report.

OPINION

Exhibit I lists \$282 of questioned costs disclosed by our audit sampling of the Contractor's contract records for the period referred to in the preceding Summary. The determination as to whether such costs will be allowable or unallowable under the contract agreement will be made by the State of Montana, Department of Labor and Industry, Governor's Employment and Training Council.

In our opinion, subject to any effects of the ultimate resolution of questioned costs, Schedules A and B present fairly, for the dates and period indicated on the Schedules, the financial results of operations and CETA cash position of the contract awarded to the Butte-Silver Bow Anti-Poverty Council in accordance with the Standards for Grantee Financial Management Systems (Federal Management Circular 74-7, Attachment G) and in conformity with the CETA regulations; and Exhibit I presents fairly the costs questioned as a result of our audit.

FINDING AND RECOMMENDATION

Cost Reimbursement

Certain travel expense reimbursements were not recorded, resulting in an overstatement of travel expenses.

Recommendation

A procedure should be developed and documented for proper recording of such reimbursements.

REVIEW OF INTERNAL ACCOUNTING AND ADMINISTRATIVE CONTROLS

As part of our examination, we made a study of the systems of internal accounting and administrative control to the extent we considered necessary to evaluate the systems as required by the CETA Audit Guide.

The objective of internal accounting and administrative control is to provide reasonable, but not absolute, assurance as to the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a system of control should not exceed the benefits derived and also recognizes that the evaluation of these factors necessarily requires estimates and judgments by management.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting and administrative control. In the performance of most control procedures, errors can result from misunderstanding of instructions, mistakes of judgment, carelessness or other personal factors. Control procedures whose effectiveness depends upon segregation of duties can be circumvented by collusion. Similarly, control procedures can be circumvented intentionally by management with respect to the estimates and judgments required in the preparation of financial statements. Further, projection of any evaluation of control to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions and that the degree of compliance with procedures may deteriorate.

Our study and evaluation of the system of internal accounting and administrative control for the period referred to in the preceding Summary would not necessarily disclose all weaknesses in the system; however in our opinion, the internal accounting and administrative control procedures are in general agreement with procedures prescribed by Federal Regulations and the Department of Labor CETA guidelines which have been determined to be adequate for accountability of assets and compliance with regulations.

DETAILED SCHEDULE OF QUESTIONED COSTS

FROM NOVEMBER 1, 1978 TO JUNE 30, 1979

Training of \$282 was questioned because travel costs of this amount incurred by the program were subsequently reimbursed. Because this reimbursement was not recorded, costs in excess of those actually expended were reported by the Contractor.

NOTES TO SCHEDULES AND EXHIBITS

1. SIGNIFICANT ACCOUNTING POLICIES AND PROGRAM INCOME:

The Schedules have been prepared in accordance with instructions contained in Standards For Grantee Financial Management Systems (Federal Management Circular 74-7, Attachment G) and in conformity with CETA Regulations. In accordance with these instructions, federal funds received are recognized when cash is received. Expenditures are recognized when incurred. This basis of accounting is not in accordance with generally accepted accounting principles.

No program income was received by the contract program during the period covered by these Schedules.

2. CASH DEFICIT:

The contract had a cash deficit as of June 30, 1979. This deficit resulted from insufficient cash drawings near the end of the contract period, and was being covered temporarily by cash in the Contractor's other programs.
